## About Me

Enthusiastic and highly motivated computer science and engineering graduate actively seeking a challenging entry-level position in the technology industry. Eager to apply my knowledge, skills, and passion for problem-solving to contribute to a dynamic team and innovative projects.

## Experience

### Keysight Technologies 2024 February - Present

IT Intern

I am working as an IT intern, deeply engaged in backend development using Django. In just a short time, I've significantly enhanced my skills, focusing on database management and API integration, among other key aspects.

## Education

**2018-2021**

ATTC

**Diploma in  
CSE**

Diploma in Computer Science & Engineering, from Advanced Technical Training Centre with an overall CGPA of 8.95.

**2021-2024**

SMIT

**B.tech in CSE**

Bachelor of Technology in Computer Science & Engineering, from Sikkim Manipal Institute of Technology with overall CGPA of 8.4.

## Projects

### E-Bulletin

Developed a website where all the latest news can be posted. The project was made using html, CSS, JavaScript, php, MySQL. It was the minor project in my course of Diploma in CSE.

### Community Forum

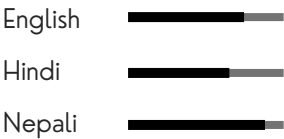

Developed a Forum for the students and teachers in my college. The project was made using Django, Python, html, CSS, JavaScript.

**Text Mining  
and Sentiment  
Analysis of  
Amazon  
Product  
Review  
Dataset**

Developed a Machine Learning Model that was able to analyze the sentiment of the reviews. The project was made using python and its various libraries.

**Language**

**Expertise**

- Backend Development
- Web Development
- RESTful APIs

**Technical Skills**

- Python
- Java
- Django
- SQL
- Java Scripts
